

Site Audit: Overview

www.moshjd.com

- The overall technical quality score of your website improved by 8 percent, reaching a healthy score of 84 percent. Additionally, the readiness score for artificial intelligence search engines is strong at 86 percent, showing no change from the previous period.
- Out of 201 scanned pages, 195 pages have some technical issues, 5 pages are completely healthy, and 1 page redirects visitors to another location. Importantly, none of your website pages are blocked from being read by artificial intelligence search tools, meaning AI systems can fully access your content.
- The number of critical website errors that severely affect search engine visibility dropped significantly by 93, leaving only 22 critical errors remaining. This includes a decrease of 46 issues related to invalid code helper data, which now stands at 20 errors.
- Less critical issues, known as warnings, decreased dramatically by 7,400, leaving 330 warnings. Notable improvements include a reduction of 2,420 pages with too much backend code relative to readable text (now at 191 pages) and a decrease of 2,360 pages missing their main heading (now at 21 pages).
- There are still some minor issues to address, including 62 pages with identical main headings and page titles (which decreased by 30) and 23 pages with page titles that are too long (which remained unchanged).
- This report provides a snapshot of current activity. Deeper trend analysis will become more reliable with a longer data history.
