

Site Audit: Overview

www.moshjd.com

- The overall technical health score of the website remains stable at 76 percent, and its readiness for artificial intelligence search tools is also unchanged at 86 percent.
- Out of 2,670 total pages scanned on the website, only 5 pages are completely healthy. There are 2,620 pages flagged with issues, 36 pages that automatically forward visitors to other addresses, 9 pages blocked from being scanned, and 2 broken pages that do not load at all.
- The website is fully open to artificial intelligence search assistants, such as those from ChatGPT, Google, Perplexity, and Claude, with zero pages blocked from being read by these tools.
- Critical website errors have increased by 32, bringing the total to 115. These critical issues include 66 instances of invalid backend coding used to describe page content to search engines, and 9 pages that share identical titles, which makes it harder for search engines to tell them apart.
- Less urgent warnings saw a major increase of 5,120, totaling 7,730. This spike is driven by 2,378 pages missing their search result text summaries (an increase of 1,710), 2,383 pages missing their main webpage headlines (an increase of 1,710), and 2,609 pages that have too much backend code compared to actual readable text (an increase of 1,710).
- This report provides a snapshot of current website health. Deeper trend analysis will become more reliable with a longer data history.
